IAH

5 GOOD REASONS TO JOIN

1. You can network with other hydrogeologists and groundwater-related specialists in your country AND from all around the world.
2. You will receive an annual paper or online subscription to Hydrogeology Journal, one of the major cited international journals dealing with groundwater issues.
3. You can participate in our wide range of special interest groups, known as Commissions and Networks (including an Early Career Hydrogeologists' Network).
4. You benefit from a range of IAH member discounts and offers, including substantial discount on publishing fees for “open choice” submissions to our Hydrogeology Journal; access to our mentoring scheme; book discounts; IAH meeting discounts; competitions; previews...
5. It is the only **global** organisation which cares passionately about the proper use, protection and knowledge of groundwater.

THANKS...

IAH CORPORATE SPONSORS

We are grateful to our corporate sponsors who, like IAH, recognise the importance of sound groundwater management and protection for the wellbeing of our world and its natural environment. They have chosen to support IAH as corporate sponsors, wishing to have greater contact with people and organisations working in groundwater, receiving member benefits and demonstrating their commitment to our association and its aims.

Supporting IAH since 2015, Waterloo Hydrogeologic develops and distributes innovative and easy-to-use environmental software solutions. They proudly support environmental professionals, government agencies and academic institutions around the world by providing powerful software that offers critical insights into subsurface environments.

<https://www.waterloohydrogeologic.com/>

IAH's newest sponsor, from 2017, Van Walt undertakes groundwater, water level, water quality, remote monitoring, soil and sediment sampling, augers, window sampling & environmental research. Van Walt produces LevelSCOUT, a research grade data logger for measuring and recording groundwater level and temperature.

<https://www.vanwalt.com/>

IAH would like to help more companies and organisations - and their staff - participate in global groundwater affairs and publicise their products and services. Find out more about our scheme at: <https://iah.org/join-us/corporate-membership-and-opportunities>.
